PROPERTIES AND ACTIONS:

Laxante stimulates the entire digestive system, increase colonic motility, has a laxative and spasmolytic effect, relieves gas pains and can also be regarded as a detoxifying agent. Laxante contains natural components.

Foeniculum vulgare: It is used as Stimulant, Stomachic analgesic. It has anti-inflammatory, antispasmodic and expectorant action.

Cuminum Cyminum: Traditional uses of cumin include to reduce inflammation, increase urination, prevent gas, and suppress muscle spasms. It has also been used as an aid for indigestion, jaundice, diarrhea, and flatulence.

Mentha piperita: It is much valued as a carminative which relieves gastric discomforts, stimulant, antispasmodic which relieves muscle strain and stomachic for improving appetite.

Zingiber officinalis: To treat hemorrhoids, dyspepsia, flatulence, colic, vomiting, diarrhoea, spasms, and other stomach complaints.

Trachyspermum Ammi: It is much valued for its antispasmodic, stimulant, tonic and carminative properties. It is administered in flatulence, atonic dyspepsia and diarrhea, and often recommended for cholera.

Calcium sennosides: Senna may relieve constipation by stimulating the muscles of the colon to push fecal matter through more quickly. It may also help your colon absorb water to soften stool. You may expect a bowel movement within 6 to 10 hours of taking senna.
